

PLASTIC SPREADERS

GENERAL

CODE	DESCRIPTION
PS50	Plastic spreaders

DESCRIPTION

Gerko plastic spreaders designed for car body repair. Used for applying and spreading putty and sealant, and removing excess material before sanding and finishing. Durable and flexible for perfect surface recovery and a smooth finish. Easy to use, ensures precision and speeds up repairs for professional results. Sharp edge and flat shape ensure easy application and even distribution of materials. Easy to clean, keeping them in excellent condition for repeated use.
